

# Join Our Team as a Maintenance Technician / Water & Wastewater Operator

## Genesee Water & Sanitation District | Golden, Colorado

Are you a hands-on problem solver with a passion for public service, mechanical systems, and utility operations? Genesee Water & Sanitation District is hiring a versatile **Maintenance Technician / Operator** to help maintain our critical infrastructure and support water and wastewater treatment operations.

Located in the scenic foothills just west of Golden, Colorado, our district offers the unique opportunity to work in a beautiful mountain setting while gaining experience with advanced treatment technology and diverse system maintenance.

---

### Why Work With Us?

- **Varied, Engaging Work:** Split your time between maintaining essential infrastructure and supporting water and wastewater treatment processes.
- **Career Development:** Receive paid training and support toward earning water/wastewater certifications and advancing your technical skills.
- **Modern Technology:** Work with leading-edge systems including a new 1.44 MGD membrane filtration plant and a 0.8 MGD wastewater facility.
- **Balanced Schedule:** Enjoy a consistent weekday schedule (8:00 AM – 4:30 PM) with rotating on-call responsibilities—no overnight shifts.
- **Stunning Location:** Be part of a dedicated team serving a small, vibrant community in the Colorado foothills.

---

### Pay Range (Based on Experience & Certifications)

- Entry-Level Hybrid Role: **\$22.00 – \$24.00/hour**
- With Certifications and Advanced Experience: **Up to \$45.00/hour**

---

### Primary Responsibilities

- Perform maintenance on district equipment and infrastructure including pumps, valves, motors, lift stations, tanks, hydrants, PRVs, and pipelines.
- Assist with the operation and monitoring of water and wastewater treatment facilities to ensure regulatory compliance and efficiency.
- Conduct basic lab tests and record water quality data as needed.

- Troubleshoot equipment and system issues in the field and treatment facilities.
  - Support emergency response and participate in on-call rotation.
  - Maintain accurate records and documentation of work performed.
- 

## Preferred Qualifications

- High school diploma or GED required.
  - Mechanical aptitude and hands-on maintenance experience.
  - Colorado Water and/or Wastewater Operator Certification preferred—or ability to obtain within 12 months (we will train).
  - Strong problem-solving skills and the ability to work both independently and as part of a team.
  - Valid Colorado Driver's License with a clean driving record.
  - Ability to lift 50 lbs and work outdoors in various conditions.
- 

## Why This Role Matters

As a hybrid Maintenance Technician / Operator, you'll be part of a small, adaptable team responsible for keeping vital utility services running. You'll support the health, safety, and quality of life for our mountain community—while building a stable, rewarding career in the water industry.

---

## Ready to Apply?

**Applications will be accepted until the position is filled.**
